LED Tube Light

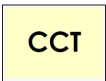

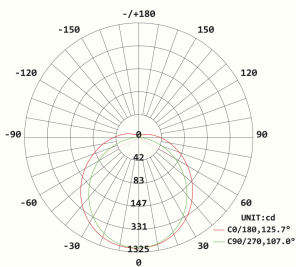

LED tube light more energy saving and high brightness are the first goal we are pursuing of all the time. Generous, simple and practical are what we have been working for. Brand Chip, CRI>80/ 90, high brightness more than 170LM/W, PC cover, Aluminum holder, EMI, EMC passed driver, high light transmittance are the main reason we win our reputation. At moment, Firemaple tube light have been widely used in shop, school, hotel, warehouse, workshop etc.

LED Triproof Light

LED Tri-proof lights are very professional and robust. The Tri-proof lights incorporate the advanced SMD LED technology which with the IP65 waterproof and IK10 approval.

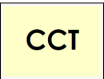

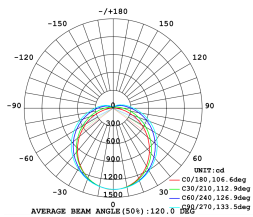

Not only the LED tri-proof lights can be the replacement of Fluorescent tri-proof lights and the twins fluorescent fittings, but also can be the modern LED lighting for the applications which need be waterproof and high lighting brightness, The special waterproof design of the LED tri-proof lights are very popular on the client side. They are mostly often used in car parks, warehouse, factories and the other industrial / commercial applications.

The 50,000 hours life span and 5 years warranty make this product become to our main product.

The Smart functions on 1-10V / Zigbee / Z-wave / Microwave sensor dimming functions make the client more and more interest in the LED tri-proof lights.
